Dear Sir:

Re: TeleCayman Revised Proposal

I am directed by the Governor in Cabinet to advise that the request by TeleCayman Ltd. dated 11th December 2008 to lease Government IT duct space without sub-ducting has been denied.

Cabinet further advised that the Ministry of District Administration, Planning, Agriculture and Housing, assisted by the Attorney General Chambers, should be requested to make the necessary applications to the ICTA, on behalf of the Ministry District Administration, Planning, Agriculture and Housing to seek relief from infrastructure sharing as outlined in the Paper.

Yours sincerely,
