Dear Mr. Young,

Re: Relocation of Heaven 97, Gospel 88 and Cayrock 96.5 transmitters

Thank you for your letter of today's date requesting clarifications on the Authority's letter of 10 September 2008 regarding the relocation of the Heaven 97, Gospel 88 and Cayrock 96.5 transmitters out of George Town.

In answer to your question, the Authority wishes to clarify that, contrary to your assertion, the 10 September 2008 letter does not grant an extension for the relocation of the Gospel 88 and Cayrock 96.5 transmitters out of George Town. This letter simply reiterates the Authority's previous determination, outlined in its 11 July 2008 letter.

The Authority also wishes to notify Paramount that, earlier this morning, Christian Communication Association requested a one month extension to the deadline for the relocation of the Heaven 97 transmitter out of George Town. I am enclosing a copy of Christian Communication Association's request. This request will be considered at the next ICTA Board meeting on 25 September 2008. Should Paramount Media wish to make submissions on this request, please feel free to do so no later than 23 September 2008.

Yours Sincerely,

David Archbold
Managing Director
