KY1-1007

Dear Mr. Young,

**Re: dms Broadcasting Ltd. - Relocation of Cayrock 96.5 transmitter**

Thank you for your letter of yesterday's date regarding the relocation of the Cayrock 96.5 transmitter.

In answer to your first question, I am enclosing a copy of the application by dms Broadcasting dated 14 September 2009. This application, together with Paramount's submissions, will be considered at the next meeting of the Authority's Board. A new Board has just been appointed by Government and its first meeting is currently scheduled for 1<sup>st</sup> October 2009. As I noted in my previous letter, we will revert back to you shortly thereafter.

Lastly, in recent telephone conversations with the Authority's Staff, Mr. Rankin has asserted that Paramount continues to experience blanketing interference. A similar statement was made in your letter of yesterday's date. Mr. Rankin also has informed us that he has technical reports substantiating this assertion. He has twice verbally agreed to forward this evidence to the Authority, but the reports have not yet been received. If Paramount has any such evidence, please file it with the Authority by no later than 28<sup>th</sup> September 2009 at 5:00pm to ensure that it can be reviewed by the Authority's Board in advance of the upcoming meeting on 1<sup>st</sup> October 2009.

Yours sincerely,

David Archbold  
Managing Director
