**Subject:** RE: Lime's Misleading Statements regarding their 4G LTE Services

Dear Glen,

Further to my letter of 4<sup>th</sup> December 2013, LIME has continued its campaign of mis-leading the Caymanian public, with information which is factually incorrect, as can be seen in the attached press ad and news release highlighted below.

The press ad in the 6<sup>th</sup> December 2013 Caymanian Compass is not accurate as it doesn't show the actual network coverage of Digicel's network and will clearly mislead customers as well as the entire market.

The news release on Cayman News Service website <http://cnsbusiness.com/content/lime-completes-4g-rollout> , is factually incorrect as it mentions transmission speeds that are not attainable given the spectrum band that is currently used by LIME and the LTE technology available today.

We are therefore requesting that the ICTA take immediate actions to stop and prevent LIME from continuing to make any public statements regarding Digicel's LTE network. The information in the press ad is over a week old and doesn't accurately reflect Digicel's LTE network coverage.

Kindest Regards,  
Chris Hayman | CEO
