

Notice of Change to Aircraft Radio Station Licences

21 March 2018

The Utility Regulation and Competition Office ('OfReg' or 'the Office') is the independent multisector regulatory authority of the Cayman Islands established by the Utility Regulation and Competition Law 2016 on 16 January 2017. Among other things, OfReg is mandated by the Information and Communications Technology Law (2017 Revision) with issuing Aircraft Radio Station Licences in accordance with the provisions of that Law and the Radio Regulations annexed to the International Telecommunications Convention now in force.

The Office is currently in the process of implementing changes to the Aircraft Radio Station Licensing Process. It is anticipated that this project, once completed, will increase the speed and efficiency with which Aircraft Radio Station Licences are issued.

As a part of this development, **OfReg will issue all approved Aircraft Radio Station Licences in digital format as PDF documents**, these licenses will be delivered to Licensees via email from noreply@ofreg.ky. The digital document shall be considered to be the 'original' Licence. Licensees are urged to retain the email and may print a copy for retention on board aircraft.

This change will take effect as of 21 March 2018.

An example of the Aircraft Radio License is attached here as Annex 1.

Annex 1

Sample Aircraft Radio Station License

The sample Aircraft Radio Station License shown below has the Authorized Signature and Utilities Regulation and Competition Office official stamp removed for security purposes.
