Re: Power Reduction for Heaven 97.7

Continuing to follow up on our conversations I would like to officially ask for Heaven 97 to be able to reduce power down to 1000 watts. Currently we are operating at 2000 watts. A reduction of power should dramatically improve the areas where there is intermodular interference between Heaven 97.7, Cayrock and Vibe. With our good position and antenna height at westar there should be no problem with us continuing to reach the whole island.

Yours sincerely

Steve Faucette
Director
