

CABLE & WIRELESS

Our ref: GRCR/GR 14.4/MOB 22.1
08 April, 2004

Mr. David Archbold,
Managing Director,
Information, Communication Technology Authority,
P.O. Box 2502GT,
3rd Floor Alissta Towers,
Grand Cayman.

Dear Mr. Archbold:

Re: Revised Mobile Tariff

Pursuant to Paragraph 106 of the Information and Communication Technology Authority (“the Authority”) Decision 2004-1 on Imputation Test of Cable and Wireless (Cayman Islands) Limited Mobile Services, please find accompanying revised Special Tariff reflecting the new minimum Postpaid Plan rates increase.

Please note that the attached tariff does not reflect any change to *on-net* and *off-net* mobile rates at this time, as we wish to consult further with the Authority.

For the bFree Anytime (Prepaid) Plan, C&W has temporarily suspended offering this Plan to new customers. We continue to provide it to existing customers (as of April 07 2004), pending further consultation with the Authority.

Please find accompanying Special Tariff Items 301, 302 and 303 with the changes as indicated above highlighted in yellow. Also inserted in tracking mode, is an IDD rate table for all three documents. This was inadvertently left off the original submission on 05 April 2004.

Please contact me should you have any questions.

Yours faithfully,
Cable & Wireless (Cayman Islands) Ltd.

[Signed]
Rudy B. Ebanks
