Subject: LIME's 6 March 2009 application to change imputation test

Tony

In footnote 2 on page 9 of yesterday's submission in the interconnection agreement dispute, LIME states that "LIME's request for a change in the imputation test methodology, was put forward to the Authority in letter dated March 6, 2009, to which no response has been received."

The Authority issued a determination on the 6 March 2009 request on 30 April 2009. I sent the determination to multiple email ID's at LIME and also sent a hard copy via post. In addition, the determination was posted on the ICTA's website at: http://www.icta.ky/da_service_filings.php.

In response to the email, I received an acknowledgement from Darrel (see below) and a "delivery failure" notification for Deborah Mangan's ID. I did not receive any delivery failure notifications from the other LIME email ID's.

As we heavily rely on electronic communications, I would appreciate it if you could ask your technical resources to see if the email to the other LIME ID's was blocked by your spam software or if there were any other delivery problems with that email from LIME's internal system perspective.

Thanks

....mark

Darrel

Attached is an electronic version of the Authority's determination.

The hard copy will follow via post.
