

ICTA/160/167-01

20 March 2009

To: ICTA Licensees

Re: Quarterly Monitoring Data

Since the period beginning 1 January 2003, certain licensees have been submitting quarterly monitoring data information to the Authority. In this letter, the Authority is hereby amending the data requirements and expanding the request to all licensees. The revised quarterly monitoring data spreadsheet template is attached.

Licensees are requested to complete all of the relevant sections of the spreadsheet without making modifications to the setup or format. For radio broadcasters, TV broadcasters and ICT infrastructure providers this is limited to Parts A and B of the spreadsheet. A definition of terms is included in the spreadsheet.

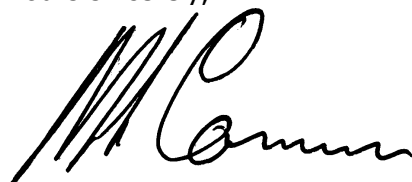

For the five quarter period beginning 1 January 2008 and ending 31 March 2009, Licensees are requested to provide a completed spreadsheet for each of those quarters by 30 April 2009.

For each quarter thereafter (i.e. beginning 1 April 2009), the Authority requests that the quarterly monitoring data be filed along with the other licensee reporting requirements no later than fifteen calendar days following the end of the quarter.

Your quarterly monitoring data should be filed with the Authority electronically by sending an e-mail to [regulatory@icta.ky](mailto:regulatory@icta.ky) and attaching the filled out spreadsheet in its original Excel format.

Licensees are reminded that information filed with the Authority is subject to disclosure. Parties may make a claim of confidentiality under the procedures established in the Information and Communications Technology Authority (Confidentiality) Regulations (the "Confidentiality Regulations") (<http://www.icta.ky/docs/Regs/ICTA-%20Confidentiality%20Regulations.pdf>). The Confidentiality Regulations also provide procedures under which confidentiality claims may be challenged.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Mark Connors'.

Mark Connors  
Head of Economics and Regulation
