**Re: Process Arising from Comments Received in the Public Consultation on Local
Number Portability (CD 2008-1) ICTA**

Dear Mr Archbold,

I firmly believe that Local Number Portability is a fundamental mechanism for increasing competition and keeping rates low in the Telecommunications market in the Cayman Islands.

In addition, a maximum increase of CI\$0.85 per month on my phone account is an acceptable amount to pay to have the ability to choose the service provider that I desire.

I urge the ICTA, as the regulator of such matters in the Cayman Islands, to implement LNP as a matter of urgency.

Regards,

I firmly believe that Local Number Portability is a fundamental mechanism for increasing competition and keeping rates low in the Telecommunications market in the Cayman Islands.

In addition, a maximum increase of CI\$0.85 per month on my phone account is an acceptable amount to pay to have the ability to choose the service provider that I desire.

I urge the ICTA, as the regulator of such matters in the Cayman Islands, to implement LNP as a matter of urgency.

PETITION FOR LOCAL NUMBER PORTABILITY

Re: Process Arising from Comments Received in the Public Consultation on Local Number Portability (CD 2008-1) ICTA

I firmly believe that Local Number Portability is a fundamental mechanism for increasing competition and keeping rates low in the Telecommunications market in the Cayman Islands.

In addition, a maximum increase of C\$0.85 per month on my phone account is an acceptable amount to pay to have the ability to choose the service provider that I desire. I urge the ICTA, as the regulator of such matters in the Cayman Islands, to implement LNP as a matter of urgency.
