Dear David,

Re: Local Number Portability

We agree with the recent article in the news paper that businesses and people stay with their current phone company because they don't want to lose their phone numbers even if the competitions rates are lower. We also agree that LNP will create more competition to bring down rates.

We do not believe that the monthly rates for LNP are expensive because they will keep overall rates down. We would like to see LNP rates introduced as soon as possible.

Yours truly,

Randy Merten
