SECTION 4

Vehicle Operating Permit

Ref No. OPV03260001 **Permit No. OPVG00080626**

It is hereby certified that **Camp Air Cayman** located at:

372 A Shamrock Road on Block 23C Parcel 35 & 36

is permitted under the above law to transport dangerous substances with the vehicle specified below:

Vehicle	Dangerous Substance(s)	Capacity (Imperial Gallons)
[redacted]	Compressed Gases	Delivery Vehicle (Cylinders)

Redacted as Commercial Interest FOI 21 (1) (b)

From **12 May 2026** until **11 May 2027**

This approval is subject to the following conditions: -

1. No change is permitted, including alteration or modification, to the current design and layout of the approved equipment, it's appurtenances, auxiliaries and other components which are affixed to this permitted vehicle for the purpose of transporting, handling and storage of dangerous substances, without written approval from OfReg.
2. Comply with all Codes, Standards, Directives, Procedures, Policies, Guidelines, Rules and Administrative Determinations issued from time to time by OfReg and shall not contravene the laws and regulations of OfReg or any other laws of the Cayman Islands.
3. The provisions of NFPA section 9 shall apply in ensuring cylinders/tanks, whether filled or empty are properly filled, secured and capped prior to transport and in the general handling of same. Only the operator's authorized persons shall mount, load or discharge the vehicle during deliveries.
4. Spills and/or releases, and incidents at the above listed location(s) or any other location(s) at which such any incidents may occur, relating to the handling, storage or transport of dangerous substances must be promptly reported to the OfReg, such notification period must not exceed 24 hours after any such occurrence.
5. This permit is issued pursuant to a valid road license being issued by DVDL to operate this vehicle or mobile equipment.
6. All permitted vehicles shall be conspicuously and legibly marked with the appropriate product and safety decals, including the relevant placards.
7. When loaded with filled cylinders, the vehicle shall not exceed its designed laden weight.
8. All permitted vehicles must be parked at the regulated premises listed above, when not in use.
