Re: Local Number Portability

Dear Sir:

We firmly believe that Local Number Portability is a fundamental mechanism for increasing competition and keeping telecommunication rates manageable in the Cayman Islands, as proved elsewhere in the world. We think that a maximum increase charge of \$.85 per month on our telephone account is an acceptable amount to have the ability to select the service provider of our choice, even though it is possible that this amount may be offset by lower overall call charges or rental for services.

We strongly urge the ICTA, the regulator of such matters in the Cayman Islands, to implement Local Number Portability as a matter of urgency, and we thank you for its consideration.

Sincerely,

A. L. Thompson, Jr.
President
