Dear Bill,

We thank you for meeting with us on Wednesday, March 4, 2015 to discuss the Digicel's concerns regarding LIME's alleged 100% 4G LTE coverage. As indicated, our investigations suggest that LIME's representation is not factual. Please find attached presentation on our findings that were discussed in our meeting, which include slides showing various press ads, website information, store branding and public displays issued and erected by LIME containing this inaccurate and misleading information.

We wish to remind you that this matter was brought to your attention since December 2014 and whilst we appreciate that you may need to assess and comment on our findings in an attempt to have this matter resolved amicably, we have to be mindful of the timelines under the Dispute Resolution Regulations. Kindly therefore revert to us as promised by **Friday, March 6, 2015** with a timeline for your response.

Sincerely,

Camaleta

Hi Bill,

Next week is fine, time to be confirmed.

Martin - CEO, Raul - COO and one of our RF Engineer will be in attendance. Gail and I may listen in remotely.

Camaleta

Camaleta,

Happy to meet but my CTO is off island this week and I'd like him to attend. Would either Tuesday or Wednesday of next week work for this?

Could you also let me know who will be attending from Digicel.

Regards

Bill

Dear Mr. McCabe,

Reference is made to the subject matter in relation to which Digicel has commenced the dispute resolution process.

In an attempt to arrive at a good faith resolution of this matter without further reference to the regulatory authority, we are proposing a meeting to discuss our investigations and findings regarding LIME's 4G LTE coverage in the Cayman Islands.

Kindly indicate your availability to meet with us at our offices on Thursday, February 26, 2015 at 10:00am. We look forward to hearing from you.

Camaleta
