Tariff Schedule

All tariffs in this schedule are presented excluding applicable taxes but are subject to those taxes at the prevailing rate.

Charges that are not included in this Tariff Schedule but which have been referenced from the Service Descriptions, Legal Framework or Joint Working Manual, including, but not limited to, payment for forecasts that are out of bandwidth and payment for delays in Service introduction, will be determined on the basis of all reasonable costs incurred by the Service Supplier unless it is agreed by both Parties to waive such costs incurred.

Call Durations are specified in this document as a charge of CI\$ per 60s. However, pursuant to the terms of the Service Descriptions, Calls will be measured to an accuracy of 1/10th of a second, and the Charges will be the sum of the month's measurements rounded to the nearest minute. Further detail of the billing process and procedures can be found in the Joint Working Manual.
