Dear Mr. Archbold,

Re: Fourth Round Interrogatories Regarding LIME's FLLRIC Phase 3 Submissions – LIME's Response to Interrogatories

Cable and Wireless (Cayman Islands) Limited, trading as "LIME" ("**LIME**") is writing further on the above matter. In LIME's submission to the Authority of responses to fourth round interrogatories, the company submitted a copy of the redacted 3G mobile modules that inadvertently contained erroneous redacted values for certain revalued assets. This oversight, in turn, resulted in the significant misstatement of certain mobile service costs. As soon as the source of the misstatements was determined, the company immediately rectified the errors. LIME now wishes to resubmit forthwith to the Authority and all interested parties corrected versions of the 3G mobile modules. To the company's best understanding, the redacted fixed and 2G mobile modules submitted previously to the Authority and all interested parties are accurate and specified properly according to the Authority directions.

Please find attached a copy of the corrected redacted 3G module and redacted 3G module with direct M2M interconnection. The cells which contain the corrected asset value inputs can be found in worksheet "Reval_Assets," cells AU2:BK2. There are no other changes to the redacted 3G modules, and the issue did not affect the confidential 3G modules.

LIME wishes to apologize to the Authority and all interested parties for any confusion or inconvenience caused by this inadvertent oversight. Please do not hesitate to contact the undersigned if you should have any questions.

Sincerely yours,

Cable and Wireless (Cayman Islands) Ltd. d.b.a. LIME
